Monday is absolutely fine. You can come down any time. Just sign the form if you decide to take them.  
Have a good weekend!

Awesome thanks. How long do we have them for? Will it be alright if I don't get to them until Monday?

Hi, Patrick –

The FRC box arrived today. I pulled the four files you requested and filled out an Activity Request form in case you want to check them out. The files are on the floor right outside my cube with the form.

Regards,  
Amy

Groovy. Come to the breezeway doors (long way around from the elevator).

Ok thanks, I'll be down around 3. I'll call ahead since my new badge doesn't have access to the records center yet.

Patrick

Patrick –

The box has been pulled of the pallet. Is it possible for you to review today? I didn't understand earlier, but it needs to be back on the pallet so those can all be staged at the dock tomorrow and Thursday! I will open the box and flag the responsive files to make it easier for you. The box is outside my desk with your initials on it!

Amy

Patrick –

I have sent in the request to retrieve 412-18-0363 box 12 of 14 from the FRC. I've also requested that G678 box 7 of 15 be pulled off its pallet on the second floor! That box should be available later today or first thing tomorrow. I'll let you know as soon as I receive each of the boxes.

Regards,

Amy

That sounds great, thanks Amy. 3-4 days should be fine, I was just curious.

Patrick –

I have an email into the FRC backup guy in our office right now with questions including timing estimates. I'll get back to you as soon as I know. Regular retrieval is 3-4 business days. Do you need it sooner?

There are three special enforcement files here in the R8RC:

FRED	TITLE	SUBTITLE
------	-------	----------

13938	OTTER TAIL POWER - COYOTE STN/PP (MONTANA-DAKOTA UTILITIES; NORTHERN MUNICIPAL POWER)	AFS 38-057-00012 T5-F84011
17925	OTTER TAIL POWER - COYOTE STN/PP (MONTANA-DAKOTA UTILITIES; NORTHERN MUNICIPAL POWER)	AFS 38-057-00012 T5-F84011
73424	OTTER TAIL POWER - COYOTE STN/PP (MONTANA-DAKOTA UTILITIES; NORTHERN MUNICIPAL POWER)	AFS 38-057-00012 T5-F84011

I wanted to at least mention them in case there might some relevant detail in there.

Regards,  
Amy

Hi Amy,

Thanks for putting this list together. Could we get all of the files except for the Otter Tail MN one? When do you think we can expect the files from the FRC?

Thanks!

Patrick

NOTE: AMY OPRA\AMY AIRPERM\AIRPERM ND OTTER TAIL Coyote Creek for PW 101618.xlsx removed

Hi, Patrick –

Please see the attached spreadsheet. There is only the one file in FRED for Coyote Creek. That's the one DJ and I looked for down here, but the location in FRED is Distributed so it's possibly in the drawers on 7 you can't currently access. None of the rest mention Creek, but they are the Coyote Station/Power Plant (which is supplied by Coyote Creek coal), so I included them just FYI. There is also a file in CBI that contains a single old document about Otter Tail Minnesota. I included it in case the location is near Coyote Creek. It's a long shot, I know.

I remember when DJ came down to ask initially that Coyote Creek didn't ring a bell. It was odd from the beginning. FRED 113233 says Mike Owens entered it 01/06/2017, but the text wasn't in our standardized format and it's missing the permit number.

Let me know if I can help you further!  
 Regards,  
 Amy

Hi, DJ –

Candace came down and after talking with her about the Coyote Creek file, we think it may still be on the 7<sup>th</sup> floor in a drawer. Although FRED 113233 says 3110 (which was the generic room number for the old RC location), it also said it was Distributed. She is going to pursue this avenue and may have already spoken to you. Just keeping you in the loop.  
Amy
